### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

This application is in condition for allowance except for the presence of claims 2, 3, 5, 6, 9-12, 17, and 18 are directed to species non-elected without traverse. Accordingly, claims 2, 3, 5, 6, 9-12, 17, and 18 been cancelled.

2. Claims 1 and 14 are allowable. The election requirement between species I-XI, as set forth in the Office action mailed on July 11, 2005, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claim 4, directed to first indication member formed in a shaped of a bag is no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim. However, claims

2, 3, 5, 6, 9-12, 17, and 18, directed to the first indication member attached by adhesive and heat shrinking or the first indication member in the an U-shape or tube remain withdrawn from consideration because they do not require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or suggest an indicator in combination with an electrical connector comprising a first indication member which is removable from the connector and which has first information positioned such that the electrical connector cannot be used if not removed and a second indication member which is attached to the to the connector is such

a why as to not impede connection of the connector and which has a second information.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
